

Guide to Save Bugmania

Attention leader of Bugmania! Your kingdom is under attack, and you must protect your people. Here are a few guidelines you need to follow in order to win the deciding battle.

In order to defeat the attackers, you need to build an army of monsters big enough to win but small enough to remain undetected by the enemies. To grow you're army you can seek help from different wizards and witches in Bugmania.

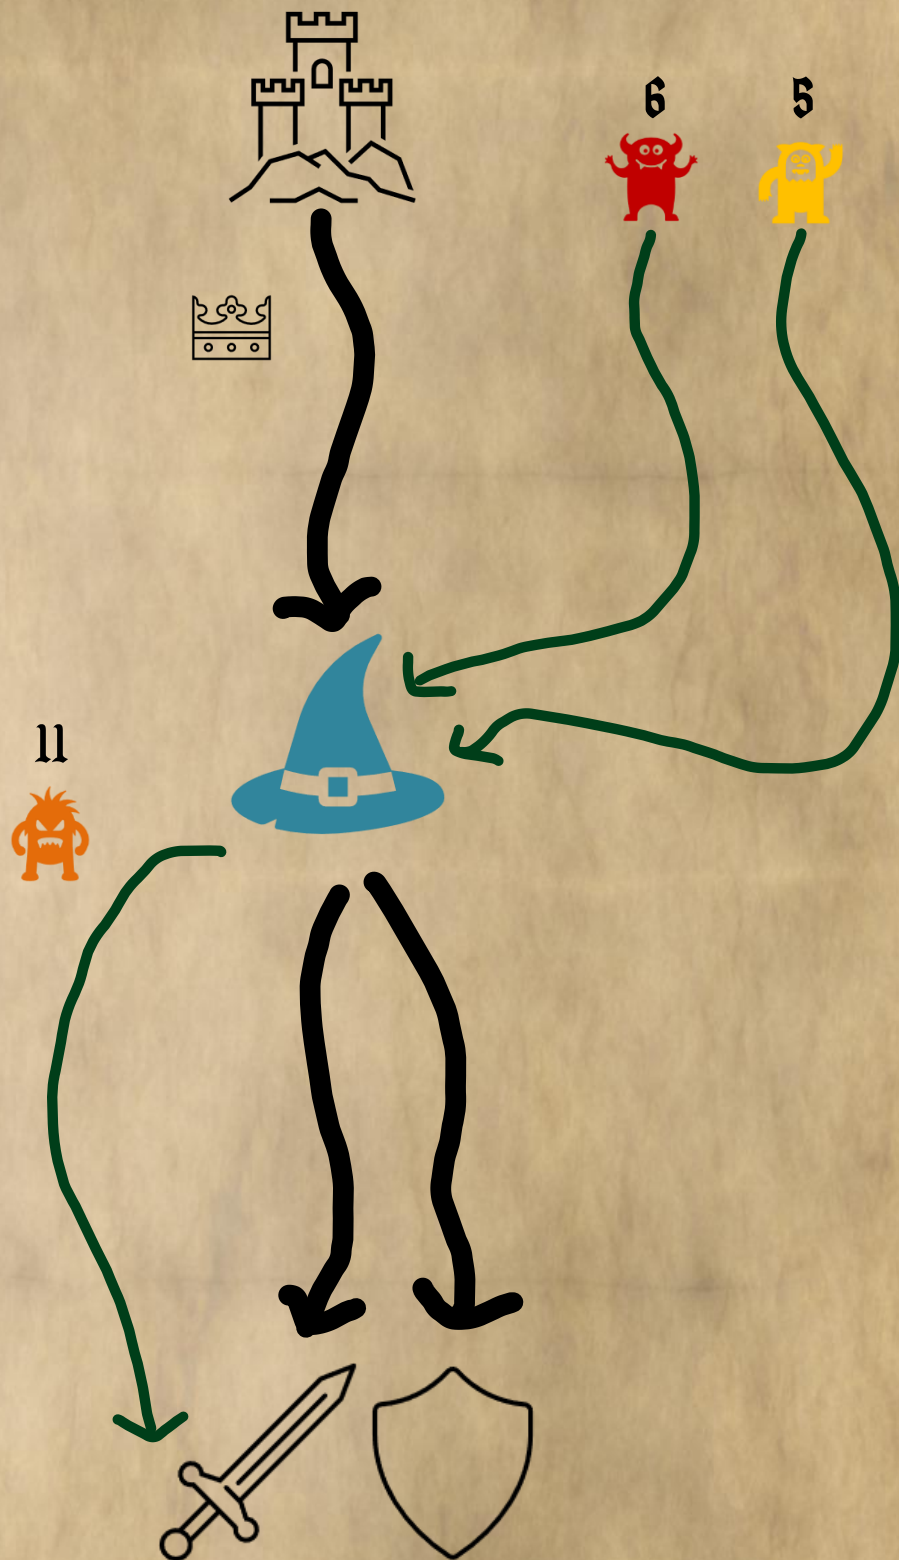

They can help you with different spells:

- Join two different groups of monsters together
- Reproduce that group as often as needed

If you only bring one group of monsters to a witch or a wizard the joining spell fails, and you end up with only one single monster. Also be aware that you can only lead on joint army of monsters into battle.

Good luck in your endeavors brave leader!

Example Battle:

11 Monsters Required
